Acceptable compostable waste

STATEMENT OF UNDERSTANDING

Nappy composting is a new and emerging alternative to nappies in landfill. The success of compostable nappies depends on making sure that only approved waste goes to the commercial composting facility. MND hand sort all nappy waste and will have to send any contaminated waste to landfill.

The commercial composting facility will only accept products for processing that have been tested to break down. The only nappies and related products that have been tested and approved for commercial composting are the Eenee nappy pads, liners and Eenee Compostables and Eenee Compostables wipes. Any other products are considered to be contamination as they have not been tested and will/may contain plastics.

APPROVED PRODUCT REQUIREMENTS

To date, the only nappy products approved for commercial composting is the Eenee range of products.

Approved Products:

- Eenee compostables
- Eenee compostables wipes
- Eenee pads – small or medium
- Eenee compostable nappy bags
- Eenee flushable liners
- Bio-bags 30L bags

PRODUCTS THAT WILL CONTAMINATE WASTE

Items considered unacceptable waste are:

- All other disposable nappies,
- All other disposable wipes,
- Non-degradable plastic bags/materials.

OIL BASED PLASTICS ARE UNACCEPTABLE WASTE and cannot be disposed of by the commercial composting facility. Oil based plastics are found in all other disposable nappies.

APPROVED WASTE MANAGEMENT

Customers must provide nappy waste as follows:

- Check used nappy for contamination
- Placed used nappies in approved 30L bio-bags
- Securely tie bag when full
- Place full bags into the 120L or 240L bin provided (or as agreed)

CUSTOMER AGREEMENT

Based on the above statement of understanding, I agree that I will not use MND bins to dispose of any other disposable nappy which may contain non-degradable plastics.

I agree that I will not use MND bins to dispose of any other wipes which may contain non-degradable materials.

I understand that if contaminated waste is found in the nappy waste collected from my address, my delivery service may:

- cease without notice; and
- that the disposal of this contaminated waste may incur extra costs.

I agree with the above MND Terms & Conditions:
